SKDS Changelog 4.2

```
Revision: 134
Author: steffen
Date: 18:50:26, Donnerstag, 30. September 2010
Message:
#bugfix initialisation sequence corrected (error in previous revision)

Revision: 133
Author: steffen
Date: 17:17:20, Donnerstag, 30. September 2010
Message:
#bugfix: the world oldest Bug removed! the "close"-item in the script-Window
menu now really closes the window! (after 15 years..)
#feature: to avoid some rare startup hang-ups, the connection to Skype is
now disabled by default. if needed, it can be activated by a new checkbox in
the preferences
#feature: for a better handling of the sometimes huge timeout after a
"Response Pending" from a module, there's now a new "response pending
timeout" available in the preferences, which is used after a response
pending message instead the normal timeout
```
