Download SKDS

Here you can download the actual released version:

Actual Version (Freeware)

Starting with Version 4 no License is needed anymore, so SKDS is now free of charge without any limitation. Until a complete rewritten new [SKDS](#) is available, the „old“ design is maintained here.

Old dongle- bundled Version

This is, for compatibility reason, the last version (3.4) which supports the licence dongle and the old depreciate file format

Installation of Customer Specific Data

Please be aware that the SKDS- Installer files do not contain some OEM specific data like vehicle config or DTC data. To add this information, please follow the [Update Custom Data](#) instructions
